at The Canyons

*Peace.
Found here.*

Just outside of the city and yet a world away, the Canyons is a natural retreat designed to soothe your soul and restore your spirit. You'll feel it the moment you cross the covered bridge and find yourself immersed in the natural landscape of rolling hillsides, gamble oaks and ravines.

This is a special place that invites you to relax and connect with friends and family at The Exchange community coffee shop, the resort and family pools, in the exercise room and event spaces of the Canyon House or in any of the parks or open spaces with large grassy areas, playgrounds, community gardens, shade structures and picnic areas.
